

CHILD SUPPORT GUIDELINES
SCHEDULE B - SELF-EMPLOYMENT INCOME
(N.D. Admin. Code 75-02-04.1-05)

NONCUSTODIAL PARENT/OBLIGOR: _____
 CUSTODIAL PARENT/OBLIGEE: _____

This schedule is for use in determining net income from self-employment. Self-employment means employment that results in an obligor earning income from any business organization or entity which the obligor is able to directly or indirectly control to a significant extent. It also includes any activity that generates income from rental property, royalties, business gains, partnerships, trusts, corporations, and any other organization or entity regardless of form and regardless of whether such activity would be considered self-employment activity under the Internal Revenue Code.

TOTAL INCOME

1. Total income -05(1) \$ _____
 (This amount is taken from either a tax return or from a profit and loss statement. If it is taken from a tax return, use the “total income” line on the IRS Form 1040; i.e., line 22 of 2002 tax return).

DEDUCTIONS

2. Amount of total income that is not the obligor’s income \$ _____
 3. Amount of total income that does not come from self-employment \$ _____
 4. Amount of income from partnership or S corporation over which obligor does not have significant control that has not been distributed \$ _____
 5. Total Deductions (total of Lines 2 through 4) \$ _____

ADDITIONS

6. Business expenses attributable to the obligor or a member of the obligor’s household for benefits, pensions, profit-sharing plans \$ _____
 7. Payments to household member to extent payment exceeds fair market value of services \$ _____
 8. Income from C corporation over which obligor has significant control:
 8a. C corporation taxable income \$ _____
 8b. C corporation federal income tax \$ _____
 8c. Line 8a less Line 8b \$ _____
 8d. Obligor’s ownership interest X .70 \$ _____
 8e. Line 8c X Line 8d \$ _____

9. Total Additions (total of Lines 6, 7, and 8e). \$ _____

ANNUAL NET INCOME FROM SELF-EMPLOYMENT

10. Annual net income from self-employment
((Line 1 - Line 5) + Line 9). \$ _____

Note: When dealing with self-employment income, the guidelines contemplate a calculation of up to a 5-year average of self-employment income to account for the significant changes that may occur in the business. If multiple years are being calculated, it will be necessary to complete multiple schedules, add the amounts on Line 10 of each schedule and divide that sum by the number of years. That result must then be entered onto Worksheet Line 3.

If there are multiple self-employment activities, each activity must be averaged separately.

Treatment of self-employment losses

If the result of averaging the self-employment income is a loss, if the self-employment activity is not a hobby, and if there is other income not related to self-employment, the self-employment loss may be used to reduce the other income in certain circumstances. If applicable, complete either Section 1 **or** Section 2 to determine if self-employment losses may be used to reduce other income.

If less than three years were averaged, complete Section 1 only. If three, four, or five years were averaged, complete Section 2 only.

Section 1: This section is for use if less than three years were averaged.

- 1. Monthly gross income \$ _____
- 2. One-twelfth of average annual self-employment loss \$ _____
- 3. Line 1 less Line 2 \$ _____

Self-employment loss may be used to reduce other income only if amount on Line 3 equals or exceeds the greatest of:

- a. 167 times federal minimum wage \$ _____
(\$5.15 per hour \$860.00)

- b. .6 times prevailing gross monthly earnings for
for persons in community with similar work history
and occupational qualifications \$ _____

- c. .8 times obligor's greatest average gross monthly
earnings, calculated without using self-employment
losses, in any 12 consecutive months over the past
36 months \$ _____

Section 2: This section is for use if three, four, or five years were averaged.

1. When three or more years were averaged, were losses calculated for more than 40% of those years?

_____ Yes

_____ No

If the answer to Line 1 is yes, STOP. The self-employment loss may not be used to reduce other income. If the answer to Line 1 is no, continue with analysis.

- 2. Monthly gross income \$ _____
- 3. One-twelfth of average annual self-employment loss \$ _____
- 4. Line 2 less Line 3 \$ _____

Self-employment loss may be used to reduce other income only if amount on Line 4 equals or exceeds the greatest of:

- a. 167 times federal minimum wage \$ _____
(\$5.15 per hour \$860.00)
- b. .6 times prevailing gross monthly earnings
for persons in community with similar work
history and occupational qualifications \$ _____
- c. .9 times obligor's greatest average gross
monthly earnings, calculated without using
self-employment losses, in any 12
consecutive months over the past 36 months . \$ _____
